

3MT Final Program

6:00-8:00pm, March 26, 2024

Welcome and Introductions

Presentations

Tabina Ahmed

Department of Physiology, Temerty Faculty of Medicine
Is it really just a cough?

Angel Badewole

Department of Chemical Engineering & Applied Chemistry, Faculty of Applied Science & Engineering
Assessing the environmental impacts of an innovative chemical production pathway

Connor Brenna

Department of Physiology, Temerty Faculty of Medicine
How is Laughter the Best Medicine?

Alexia Cumal

Lawrence S. Bloomberg Faculty of Nursing
Walking with Care: A Nurse-Led Intervention for Older Adults with Dementia

Mimi Deng

Institute of Medical Science, Temerty Faculty of Medicine
Warming Up the Ice Age of Heart Transplantation

Kyle Farwell

Faculty of Kinesiology & Physical Education
We've got your back: Influencing firefighters' lifting mechanics to reduce the risk of low-back injuries in the fire service

Carolyn Kelly-Ruetz

Department of Laboratory Medicine & Pathobiology, Temerty Faculty of Medicine
10 km: The Difference Between Living and Dying

Daniil Lisus

Institute of Aerospace Studies, Faculty of Applied Science & Engineering
Helping Autonomous Cars See What Our Eyes Can't

Angelico Obille

Institute of Biomedical Engineering, Faculty of Applied Science & Engineering
The Sticky Science of Bio-inspired Materials Design

Emaad Paracha

Department of Physics, Faculty of Arts & Science
Detecting Dark Matter in Galaxy Clusters from the Stratosphere

Nicholas Silver

Department of Biochemistry, Temerty Faculty of Medicine
Why Protein Shape Matters

Nadine Zaghrini

Department of Civil & Mineral Engineering, Faculty of Applied Science & Engineering
Powering the decarbonization of the car sector in the United States

Winners Announced & Refreshments
